FOREWARD

Pakistan is one of the few countries of the world, where a variety of fruits are grown in cool temperate climate such as apples, pears, plums, cherries, and those grown in the warm temperate climate are apricots, figs, grapes, pomegranates, melons and the rest in the tropical and sub-tropical climate like bananas, mangoes, dates, guava and citrus fruits, which are available throughout the year. While the fruits grown in temperate climate are produced in Baluchistan and NWFP, tropical and subtropical fruits are mostly grown in Punjab and Sindh. The various varieties of fruits are grown over an area of about 8.04 million hectares. The annual production of fruits in Pakistan is estimated at around 6.57 million tonnes, of which only 674 thousand tonnes were exported in 2015-16.

In 2015-16 overall fruit export has witnessed a steady growth. More than 29 types of fruits and 33 types of vegetables are produced in the country throughout the year. The highest production have reached i.e Citrus fruit & Mango 2.3 and 1.3 million tons, the largest fruit crop group by volume and are major export revenue earner. According to latest figures Pakistan exported 674 thousand tons of fruits, vegetables 692.2 thousand tons and condiments 20.5 thousand tons in FY 2015-16.

Pakistan is cognizant of the enormity of challenges i.e climate change and Brexit, a proactive approach is required to identify the nature of challenges and develop a dynamic response mechanism. There are however ,issues relating to compliance, certification according to international standards, traceability, farm management, perish –ability, storage and wholesale markets and marketing which are being taken care off by the ministry of National Food Security and Research

I hope this book will provide a useful data base and reference document for the policy makers, researchers, students, planners and general public. I appreciate the hard work done by the officers and staff of the Economic Wing involved in data collection and compilation of “**Fruit, Vegetables and Condiments Statistics of Pakistan, 2015-16**”. Suggestions for improvement of the publication will be welcomed.
